James Ciclitra

Product Designer based in London, creating complex digital products that lead to better user experiences. I love to design beautifully simple interfaces, code, iterate and create. I am an experienced and capable Digital Product Designer with over 2 years of professional experience.

EXPERIENCE

Product & Web development

Suggestv • January 2017 - April 2017

Suggestv is the inventor of semantic video distribution. I was responsible for designing and aiding in the production of a semantic video distribution platform using React.

Product designer

CrowdScores • September 2015 - January 2017

CrowdScores is a real-time sports data application. I had the pleasure of working as the principal designer taking responsibility for a variety of roles. Responsible included improving the existing product, developing new features research, conceptualising ideas & prototyping.
